

# Windows 7: Setting Up a Secure Wireless Connection

## Step 1

In the system tray (located on the lower right-hand corner of the screen), select and click the icon for [Available Connections](#).

## Step 2

In the window that appears, which lists various available networks, select and click on [Bethel-Wifi](#).

## Step 3

Then, click on the button for [Connect](#).

## Step 4

In the box that appears, enter your [Bethel Username](#) and [Password](#), then select **OK**.

**\*Note:** Your computer may prompt you to enter your Bethel credentials multiple times. If you are so prompted, simply repeat **Step 4**. When complete, you will no longer be asked to enter your credentials.

## Step 5

Finally, click the button for [Connect](#) in the window that appears.

Your computer should now be connected to the Internet.

**If you need assistance with this process,  
please call the ITS Student Services Help Desk at x6500 - Option 2.**
