Williamson, Abigail	320-761-8431

Please remember that if you are unable to work your scheduled shift then it is your responsibility to find a sub to cover for you. You may use this list to contact other student employees who are trained for your job area. Sending mass texts or emails is very highly discouraged because it does not work and it is annoying to those receiving your messages. You are encouraged to make individual requests via text, phone or email or even better to make your requests in person.

If you are having difficultly finding coverage for your shift, you should contact the student manager responsible for that shift. The student manager and area phone numbers are listed here for your convenience.
