

Safety Shelters

Safety shelter locations (i.e., storm shelters) have been marked in buildings with signs that say "*Severe Weather Shelter Area*". Additionally, classrooms, office suites, resident rooms, lounges and other public areas on campus have Emergency Procedures placards that describe the nearest recommended safety shelters. All safety shelters are recommendations only - there are not any tornado shelters that have been built to specific code for that use. Safety shelter areas are listed below for all of the main buildings on campus.
