Go to the ALEKS home page at [http://www.aleks.com](http://www.aleks.com).
Click on the “New Student?” link.

Fill in the Course Code boxes with the course code **H4MKC-JRW4M**, and click “Continue.”

You will now see the course information, and you can click “Confirm.”

Most likely, you don’t have an ALEKS login name, so you will choose that option and click “Continue.” If you have used ALEKS, you are welcome to use an existing login name. If you are a new user, fill in the next registration page. Write down the login Name assigned to you.

You will now need to purchase your access code by selecting, “No, I need to purchase an access code” and select “Continue.”

On the next page, you should see the course and price. Enter in your information along with your credit card information, and accept the “Service Agreement”

Once you are registered, ALEKS will lead you through all information needed to get started in the course (including entering your newly-purchased access code).

You should be sure to take advantage of any support information (instructions on understanding how ALEKS works) that is offered as you move forward in the program. ALEKS is quite “user-friendly,” and will walk you through all of the features of this online program.
