

Precalculus Course Contract for Level 4 Students

4/18/2019

How likely are you to succeed if you sign this course contract?

The following plots and statistics give average grades in courses for students enrolling in Precalculus and Calculus 1 from Fall 2011 - Fall 2014.

For Precalculus,

- if you score at the appropriate level (level 1 - 3), you have an **83%** chance of getting a "C" or better, and an **8%** chance of getting an "F" or "W"
- if you score a level 4, you only have a **63%** chance of getting a C or better, and a **23%** chance of getting an "F" or "W" (based on statistics for Precalculus students between Fall 2011 - Fall 2014, with 175 students).

I realize that the Math department has recommended that I not take Precalculus due to my low placement exam result. I choose to take the course at my own risk, and will work to correct the deficiencies in my background.

Students: next steps...review!! A new review tool is available through, **ALEKS®**. See the testing website or the email you received after the placement test for more information. You will be accountable for this material, as **you will be required to take the Skills Test**, on the Friday of the first week of classes. The Skills Test counts as your first in-class exam and contains the prerequisite material for Precalculus from the placement exam. To get a current estimate for your score on this exam, pull up your placement exam results email with subject: "Calculus Precalculus Math Placement Exam Details" and count the number correct in the first 20 questions: $\frac{\quad}{20} = \quad\%$. (If you lost the email, google, "Bethel Math Placement" and go to the policies page, then click on, "[Registration Clearance and Viewing Results](#)" at the top of the page.)

Faculty Clearance Instructions: Go to: banner.bethel.edu. Choose "Login to Bethel University's Self-Service Banner System" >Faculty and Advisors> Term Selection (then select term & Submit)> Student Information Menu >ID Selection (enter ID or name and submit 2x)> Registration Overrides. Then, under "Override" choose "Override placement exam score," choose your course & submit.
